Semiannual Agenda of Regulations; Republication

Editorial Note: FR Doc. 2013-29649 originally published on pages 1281-1287 in the issue of Tuesday, January 7, 2014. Due to numerous errors, the preamble is being reprinted in its entirety.

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Federal Deposit Insurance Corporation (“FDIC”) is hereby publishing items for the fall 2013 Unified Agenda of Federal Regulatory and Deregulatory Actions. The agenda contains information about FDIC’s current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Robert E. Feldman, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

Final Rules:

Regulatory Capital Rules: Regulatory Capital, Implementation of Basel III

Capital Adequacy, Transition Provisions, Prompt Corrective Action, Standardize Approach for Risk-Weighted Assets, Market Discipline and Disclosure Requirements, Advanced Approaches Risk-Based Capital Rule, and Market Risk Capital Rule (3064-AD95)

The Federal Deposit Insurance Corporation ("FDIC") is adopting an interim final rule that revises its risk-based and leverage capital requirements for FDIC-supervised institutions. This interim final rule is substantially identical to a joint final rule issued by the Office of the Comptroller of the Currency and the Board of Governors of the Federal Reserve System (together, with the FDIC, "the agencies"). The interim final rule consolidates three separate notices of proposed rulemaking that the agencies jointly published in the Federal Register on August 30, 2012, with selected changes. The interim final rule implements a revised definition of regulatory capital, a new common equity tier 1 minimum capital requirement, higher minimum tier 1 capital requirement, and, for FDIC-supervised institutions subject to the advanced approaches risk-based capital rules, a supplementary leverage ratio that incorporates a broader set of exposures in the denominator. The interim final rule incorporates these new requirements into the FDIC's prompt corrective action framework. In addition, the interim final rule establishes limits on FDIC-supervised institutions' capital distributions and certain discretionary bonus payments if the FDIC-supervised institution does not hold a specified amount of common equity tier 1 capital in addition to the amount necessary to meet its minimum risk-based capital requirements. The interim final rule amends the methodologies for determining risk-weighted assets for all FDIC-supervised institutions. The interim final rule also adopts changes to the FDIC's regulatory capital requirements that meet the requirements of section 171 and section 939A of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The interim final rule also codifies the FDIC's regulatory capital rules, which have previously resided in various appendices to their respective regulations, into a harmonized integrated regulatory framework.

Completed Actions:

Recordkeeping Rules for Institutions Operating Under the Exceptions or Exemptions for Banks from the Definitions of "Broker" or "Dealer" in the Securities Exchange Act of 1934 (3064-AD80)

This RIN has been withdrawn for further interagency action.

Regulatory Capital Rules (Part III): Standardized Approach for Risk-Weighted Assets; Market Discipline and Disclosure Requirements (3064-AD96)

On August 30, 2012, the FDIC, together with the Board of Governors of the Federal Reserve System and Office of the Comptroller of the Currency (together, "the agencies") published in the Federal Register a joint notice of proposed rulemaking, titled, Regulatory Capital Rules: Standardized Approach for Risk-Weighted Assets; Market Discipline and Disclosure Requirements" (Standardized Approach NPR or Proposed Rule). The Rule revised and harmonized the agencies' rules for calculating risk weighted assets to enhance risk sensitivity and address weaknesses identified over recent years, including by incorporating certain international capital standards of the Basel Committee on Banking Supervision ("BCBS") set forth in the standardized approach of the international accord titled, "International Convergence of Capital Measurement and Capital Standards: A Revised Framework", as revised by the BCBS in 2006 and 2009, as well as other proposals set forth in consultative papers of the BCBS. Section 3(a) of the Regulatory Flexibility Act directs all federal agencies to publish an initial regulatory flexibility analysis, or a summary thereof, describing the impact of a proposed rule on small entities anytime an agency is required to publish a notice of proposed rulemaking in the Federal Register. This Rule has now been merged into 3064-AD95: Regulatory Capital Rules: Regulatory Capital, Implementation of Basel III Capital Adequacy, Transition Provisions, Prompt Corrective Action, Standardize Approach for Risk-Weighted Assets, Market Discipline and Disclosure Requirements, Advanced Approaches Risk-Based Capital Rule, and Market Risk Capital Rule.

Regulatory Capital Rules: Advanced Approaches Risk-Based Capital Rules; Market Risk Capital Rule (3064-AD97)

The Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation (collectively, the "Agencies") are seeking comment on three notices of proposed rulemaking ("NPRMs") that would revise and replace the Agencies' current capital rules. In the NPRM (Advanced Approaches and Market Risk NPR) the Agencies are proposing to revise the advanced approaches risk-based capital rule to incorporate certain aspects of "Basel III: A Global Regulatory Framework for More Resilient Banks and Banking Systems" that the agencies would apply only to advanced approach banking organizations. The NPRM also proposes other changes to the advanced approaches rule that the agencies believe are consistent with changes by the Basel Committee on Banking Supervision ("BCBS") to its "International Convergence of Capital Measurement and Capital Standards: A Revised Framework" (Basel II), as revised by the BCBS between 2006 and 2009, and recent consultative papers published by the BCBS. The Agencies also propose to revise the advanced approaches risk-based capital rule to be consistent with Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"). These revisions include replacing reference to credit ratings with alternative standards of creditworthiness consistent with section 939A of the Dodd-Frank Act. This Rule has now been merged into 3064-AD95:

Regulatory Capital Rules: Regulatory Capital, Implementation of Basel III Capital Adequacy, Transition Provisions, Prompt Corrective Action, Standardize Approach for Risk-Weighted Assets, Market Discipline and Disclosure Requirements, Advanced Approaches Risk-Based Capital Rule, and Market Risk Capital Rule.

Federal Deposit Insurance Corporation.
